

## **REMARKS**

This is a national phase filing of a PCT International Application which originally contained 30 claims, including multiple-dependent claims. The claims were amended in a Preliminarily Amendment originally filed July 30, 2006, to reduce the number of claims to 23 (2 independent) and remove multiple-dependent claims therein. No new matter was added.

The status identifier of Claim 3 was erroneous listed as (Amended) and is herein corrected to (Currently Amended) in the Corrected Preliminary Amendment submitted herewith.

The status identifier of Claim 49 was inadvertently omitted and is herein corrected to (New) in the Corrected Preliminary Amendment submitted herewith.

In accordance with our July 26, 2005 conversation with Ms. Anita Johnson of the U.S. P.T.O. and pursuant to her instructions to submit a substitute specification, and further in accordance with our telephone conversation with Eva Gillis on May 17, 2006, included herewith we respectfully submit a Corrected Preliminary Amendment with Substitute Specification which includes the aforementioned correctly identified claims.

Respectfully submitted,

F. David LaRiviere  
Reg. No. 27,207
